HW+

'APV W+ - SINGLE & DOUBLE SEAL KIT'
SPECIFICATION SHEET

*single seal configuration shown

► Single Seal Face Kit
► Suits APV® W+ Pumps

HW+ is designed to replace the front-loaded seal face kit fitted to APV® W+ "World Plus" centrifugal pumps.

The rotating seal face is mounted behind the impeller with 1 x pinned slot, whereas the stationary face is spring loaded via 4 x slots engaging with a pressure ring.

A fixing kit is also available separately replacing the metal pressure ring, spring & seal housing components.

► Optional Fixing Kit

The single seal's metal components or "fixing kit" is also available seperately, replacing the metal pressure ring, spring & seal housing.

► Double Seal Face Kit

The inboard and outboard faces of the double seal configuration use the same seal face components; therefore, two units are required.

The double seal fixing it is not available.

► Material options:

Rotary Face:	SiC
Stationary Face:	SiC or CAB
Elastomers:	N, V or EP

PARTS

A Stationary O-ring
B Stationary Face / Ring
C Rotary O-ring
D Rotary Face / Ring
E (Optional) Seal Housing
F (Optional) Spring
G (Optional) Pressure Ring

EQUIVALENT

T0WP / T0WPU
Type 16.PLUS

PUMP COMPATIBILITY

Replaces the "Face Kit" and "Fixing Kit" in APV W+ pump range, including variants Wi+, Ws+, Whp+ & Wa+:

Face Kit
Replaces the **OEM part numbers**:
L772461, L772466, L772462, L772467, L772463, L772468, L772464, L772469

Fixing Kit:
Replaces the **OEM part numbers**:
L772460, L772465
